

It's Your Time On the Line.

So let's take this serious.

Adding acid takes too much time.

Vibration kills performance.

A loose connection is a serious problem.

It's time to find a real solution for today's power sports demands.

Superior AGM technology. Trusted battery design.

What does it mean to be Authentic?

- Superior AGM design that's optimized in American factories for top performance
- Original ETX two-way terminal design for secure connections

What does it mean to be an ETX?

- Say goodbye to lengthy installations, adding acid, and unnecessary replacements
- Say hello to the best built Power Sports AGM battery in the industry

If you value the time on your vehicle, we've built this for you.

- ① **Unique, pressurized valve system** is engineered for safety and long life. Helps prevent dry-out.
- ② **Molded top and side insert terminal design** provides ease of installation, increased strength and durability.
- ③ **Fortified posts, straps and welds** improves vibration resistance for long life and performance.
- ④ **Enhanced electrolyte suspension system** retain acid, protect plates, ensuring long life.
- ⑤ **POWER-PERFORM™ positive and negative, full-frame plates** provide the highest cranking amps and the lowest self-discharge rates for off-season storage.
